

**Press release:**

**UNITEX FACTORY INAUGURATION CEREMONY  
AND THE 25-YEAR ESTABLISHMENT ANNIVERSARY OF  
CENTURY SYNTHETIC FIBER CORPORATION**

Ho Chi Minh City, January 23, 2026

On January 23, 2026, Century Synthetic Fiber Corporation (“STK”) officially held the inauguration ceremony of the Unitex Factory, in conjunction with the celebration of its 25th anniversary. The event was organized as an expression of sincere gratitude to the Company’s valued partners, customers, shareholders, and all employees whose collective contributions have shaped the strong growth and success of Century Synthetic Fiber Corporation to date.

As one of Vietnam’s leading manufacturers of high-end polyester filament yarns, Century Synthetic Fiber Corporation has established a strong reputation and brand presence in both domestic and international markets for over 15 years. The Company has positioned itself as a trusted supplier to premium fabric manufacturers serving globally renowned brands such as Nike, Adidas, Uniqlo, Under Armour, Decathlon, Puma, Guess, etc, ...

Unitex is a wholly owned subsidiary of Century Synthetic Fiber Corporation. The Unitex Factory – Phase 1 has been officially completed and commenced operations in early 2026. The project has a total investment value of VND 3,379 billion (equivalent to USD 125 million), implemented in two phases. Phase 1 represents an investment of VND 2,130 billion. Upon stable and sustainable operation of the factory, Phase 2 will be implemented in accordance with market demand and the Company’s strategic plan.

The inauguration of the Unitex Factory marks a milestone of particular significance in the Company’s future development strategy. Beyond the commissioning of a new manufacturing facility, this event reaffirms STK’s long-term investment commitment to advanced technology, automation, and sustainable development. Through this project, STK clearly demonstrates its strategic orientation toward the development of new product lines, especially environmentally friendly products, in response to the global trend toward sustainable consumption and increasingly stringent requirements from international customers.

In addition to expanding production capacity, Unitex’s key competitive advantage lies in its long-term investment vision and comprehensive approach. From the outset, the project has emphasized high levels of automation, advanced technology, and strict quality control, ensuring product stability and consistency. Furthermore, Unitex has been developed in alignment with sustainable development principles, including energy optimization, environmental management, and compliance with international standards required by global customers. Alongside capacity expansion, the Company places strong emphasis on developing technically advanced products with specialized features that enhance user comfort and health benefits, such as ultraviolet protection, thermal insulation, cooling properties, etc, ... In the next phase, investment in modern

production capabilities has been identified as a key strategic pillar to diversify the product portfolio, enhance quality, and meet increasingly demanding market and customer requirements.

In parallel, the Unitex Factory has been optimized for the production of recycled yarns. Despite ongoing challenges in the broader market, STK has continued to record positive growth in its recycled yarn segment, with 2025 revenue from recycled yarns increasing by 25.2% compared to 2024. Notably, recycled yarn revenue accounted for approximately 49.8% of total revenue in 2025, further reinforcing the pivotal role of this product group in the Company's sustainable development strategy.

With high-quality projects, strong growth potential, and a solid fundamental foundation, STK looks forward to delivering attractive investment and cooperation opportunities to its shareholders, customers, and investors in the next phase of the Company's development journey.
