Re: Explanation of profit fluctuations between the two reporting periods.

To:

- State Securities Commission.
- Ho Chi Minh City Stock Exchange (HOSE)

Century Synthetic Fiber Corporation hereby provides an explanation of the fluctuation in its after-tax profit for the third quarter of 2026 compared with the third quarter of 2025, as presented in the IFRS Consolidated Financial Statements prepared by the Company as of October 26, 2026, as follows:

Unit: VND 1,000

+ Consolidated

No.	Item	Quarter III/2026	Quarter III/2025	Increase (+)/ Decrease (-)	
1	Net revenue	404,013,721	318,955,288	85,058,432	26.7%
2	Gross profit	43,660,255	73,335,298	(29,675,042)	-40.5%
3	Profit before tax	(33,746,984)	23,410,241	(57,157,225)	-244.2%
4	Net profit after tax	(34,017,579)	10,794,655	(44,812,234)	-415.1%

Reasons:

Consolidated revenue increased by VND 85 billion, equivalent to 26.7%, driven by higher sales volume and revenue. Consolidated gross profit decreased by VND 29.67 billion, equivalent to 40.5%, due to higher machine shutdown costs directly recognized in cost of goods sold and lower selling prices compared with the same period last year. Consolidated profit before tax decreased by VND 57.1 billion, equivalent to 244.2%, while consolidated profit after tax decreased by VND 44.8 billion, equivalent to 415.1%, mainly due to the aforementioned decline in gross profit, higher interest expenses, and increased administrative expenses at the Unitex subsidiary following the cessation of interest capitalization compared with the same period last year.

We sincerely thank you and extend our best regards.
